EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephan Koschmieder on 09/24/2004.

The application has been amended as follows:

In Claim-2, Line-5, AFTER 'present' DELETE 'in'
and REPLACE with --between—

This amendment does not introduce any new matter and supported by the original claim-2.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-23 are allowed as amended over the arguments by the applicants and prior art of record that neither teaches nor fairly suggestive of an oxide ion conductor composition and the method of making an oxide ion conductor, particularly a perovskite type rare-earth-gallate composition with six cations meeting the limitations of the instant claims by the applicants. The claims newly added with the amendment were fully examined for patentability under 37 CFR 1.104, and no prior art was found.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
